Experienced full stack web developer with a passion for innovation. Proficient in PHP, JavaScript, MySQL, CSS, and more. Seeking exciting opportunities to leverage my skills in cutting-edge projects and collaborative teams.

## Skills

- **Backend Development**  
Expert in PHP for robust backend development.
- **Frontend Development, UI/UX Design**  
Skilled in JavaScript, jQuery, HTML, and CSS for creating engaging user interfaces.
- **Database Management**  
Experienced in handling various databases, including MySQL, MySQLi, MariaDB, and PostgreSQL.
- **Ecommerce & Online Marketing**  
Well-versed in driving online sales and marketing strategies.
- **Hosting Management**  
Proficient in managing hosting environments using cPanel, DirectAdmin, and more.
- **Familiar with**  
SEO, NodeJS, React, Typescript, PHP frameworks like Symfony and Laravel, PHP Composer, Git, Adobe Photoshop

## Professional Experience

**As a full stack developer** *Designed, developed, and supported projects from the scratch.*

- **noBorder.tech**
  - January 2023 – July 2023, Tehran, Freelancer
  - Pioneered a global payment solution based on cryptocurrencies. Leveraged NodeJS to develop an automated wallet creator for 12 cryptos. Currently spearheading an advertising campaign for a successful fintech launch.
- **Vabimeh.ir**
  - December 2021 – July 2021, Tehran, Freelancer
  - Developed an interactive platform, simulating operators to present insurance plans and calculate prices instantly. Currently serving over five thousand users in Iran.

- **PersianLegends.ir**

- *August 2021 – November 2021, Tehran, Freelancer*
- Crafted the first blockchain-based, play-to-earn Persian online game with over 5 thousand players. Empowered players to own their cards and coins, enabling easy trading in an open marketplace.

- **DM3.ir**

- *April 2021 – July 2021, Tehran, Freelancer*
- Pioneered a free and comprehensive portal enabling users to create blogs, online stores, formal websites, and more without coding or design skills.

- **MitraRank.ir**

- *September 2020 – March 2021, Tehran, Freelancer*
- Engineered a high-traffic advertising platform fostering interactions between advertisers, publishers, and consumers. Currently servicing over thirty thousand users.

## **As a web developer employee** *Participated in talented teams at several companies.*

- **Ahan Online**

- *June 2018 – August 2020, Tehran, Full-time*
- Provided backend development and consultancy for the online marketing of a startup that attempted to engage a traditional market in a modern way of doing business.

- **Tabarzin Sanat**

- *April 2016 - May 2018, Tehran, Full-time*
- Guided a traditional company in implementing automation systems and online processes. Achieved a remarkable 40% reduction in internal costs within two years.

- **Mitra Net Pars**

- *April 2011 - March 2016, Tehran, Full-time*
- Contributing to a talented team of 5 programmers. Together, we create and manage hundreds of microsites. My focus is on building backend codes that ensure seamless communication between frontend interfaces and servers.

## **Education**

- **TOEFL iBT® Certificate** Score: 102, Aug 2023
- **Harvard University CS50** Introduction to Computer Science, Online course, Oct 2023
- **Harvard University CS50** Computer Science for Business Professionals, Online course, Nov 2023
- **Bachelor of Industrial Engineering** University of Science and Technology, Iran, Jan 2006 - Feb 2011
