don't make another”

Hi, I am Hanif Zekri Astaneh
Full Stack Web Developer

SUMMERY

I am 36 years old, and I started my journey almost 12 years ago with a small online shop.

I loved achieving goals and being challenged.
I am an expert at PHP, HTML, CSS, JS, jQuery, and MariaDB.
Furthermore, I am familiar with Adobe products like Photoshop and Dreamweaver.

I have been working in the e-commerce and business management areas all this time, so I am also familiar with search optimization and advertising planning.

Currently, I am learning about blockchain technology and would also love to know more about AI and machine learning techniques.

By the way, I am married and have a beautiful wife and a good boy!

"Family is important because they offer support and security, coupled with unconditional love."
