

“ The world was built by a programmer,  
don't you think ? ”

*Hi, I am Hanif Zekri Astaneh*  
**Full Stack Web Developer**

# SUMMERY

I am 36 years old, and I started my journey almost 12 years ago with a small online shop.

I loved achieving goals and being challenged.  
I am an expert at PHP, HTML, CSS, JS, jQuery, and MariaDB.  
Furthermore, I am familiar with Adobe products like Photoshop and Dreamweaver.

I have been working in the e-commerce and business management areas all this time, so I am also familiar with search optimization and advertising planning.

Currently, I am learning about blockchain technology and would also love to know more about AI and machine learning techniques.

By the way, I am married and have a beautiful wife and a good boy!

“Family is important because they offer support and security, coupled with unconditional love.”

```

protected function
addOrEnqueueAnAddress($kind, $address,
$name)
{
    $pos = false;
    if ($address !== null) {
        $address = trim($address);
        $pos = strpos($address, '@');
    }
    if (false === $pos) {
        $error_message = sprintf(
            '%s (%s): %s',
            $this-
>lang('invalid_address'),
            $kind,
            $address
        );
        $this->setError($error_message);
        $this->edebug($error_message);
        if ($this->exceptions) {
            throw new
Exception($error_message);
        }
    }

}

```

# BACK-END DEVELOPERS

PHP, MariaDB, mySQLi

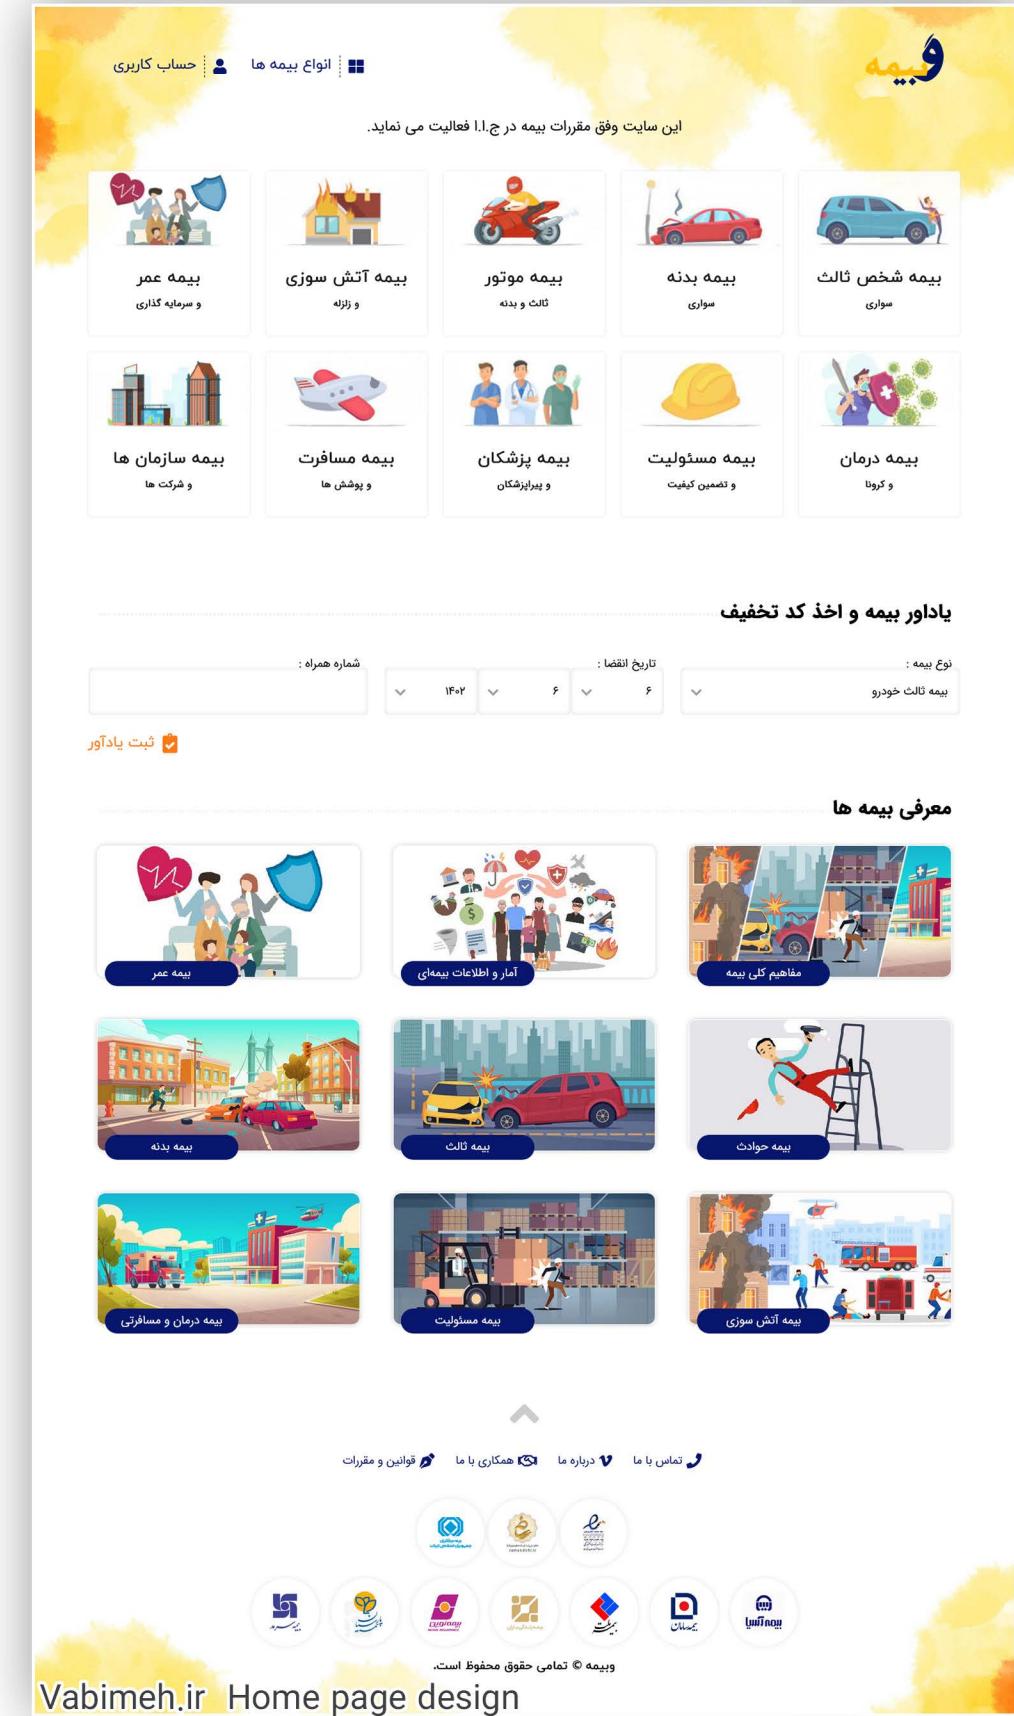

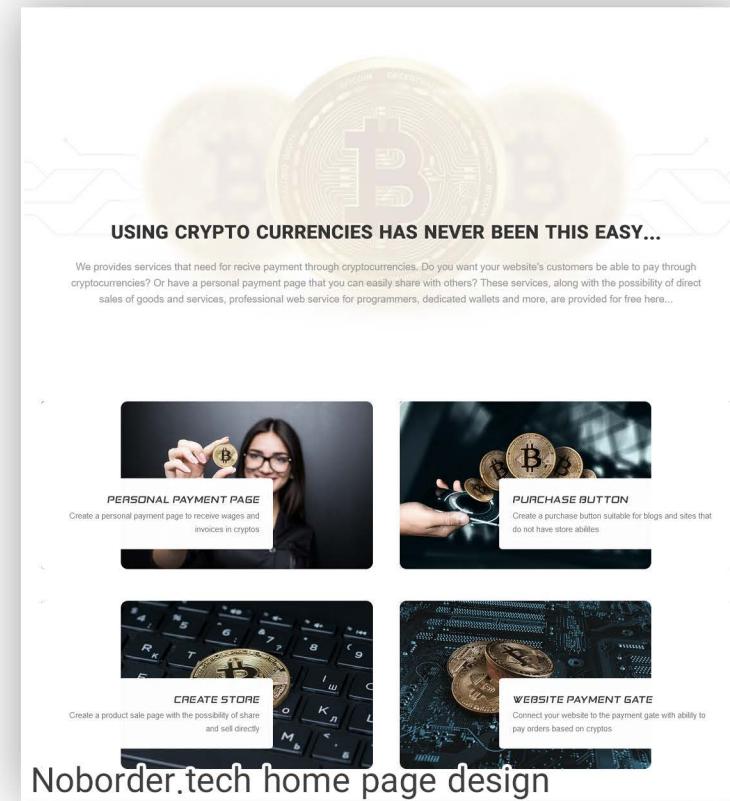

“ With the power of  
PHP and MariaDB,  
We can build  
any mechanism  
with a high load traffic  
and no latency.”

# FRONT-END DEVELOPER

## HTML, CSS, JS, jQuery

“The base of any web page is HTML. Along with CSS, We can make it pretty, and when it comes to JS and jQuery, We can make it alive.”

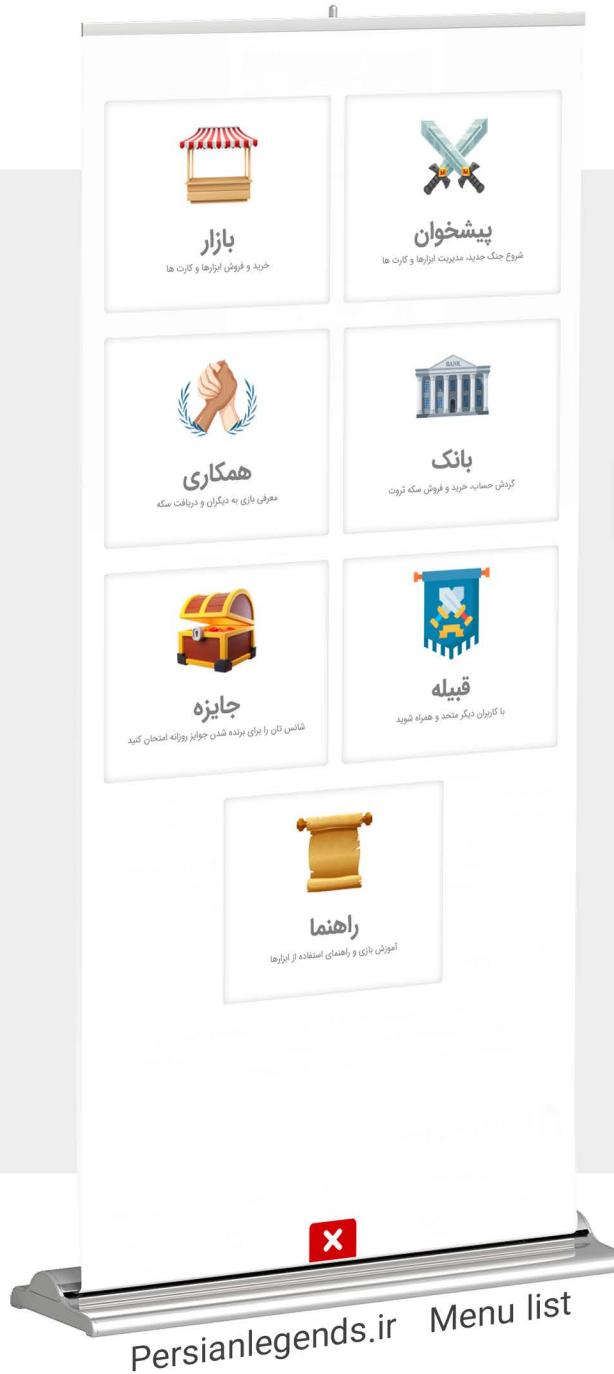

# LOGO DESIGN

“The right logo says everything without saying a word. It connotes feelings of honor, trust, pride, and integrity. It conveys a series of virtues and a set of values without pages of copy and a team of copywriters.”

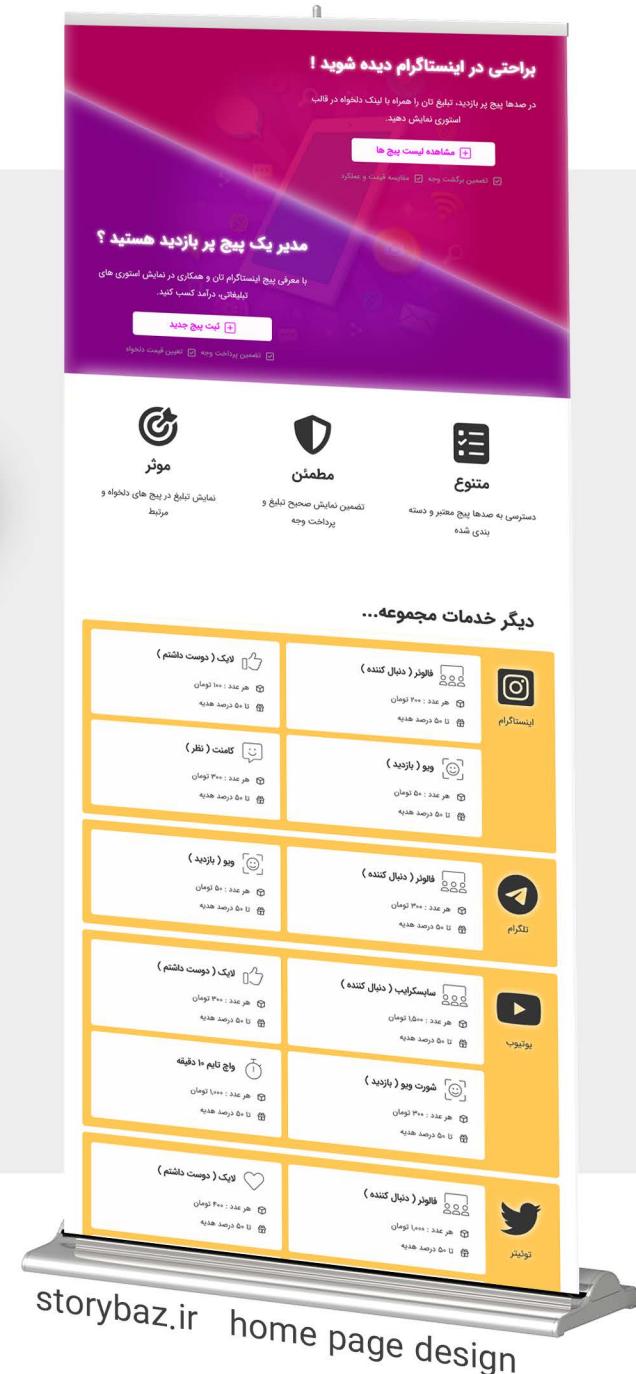

# ITEM DESIGN

“ Every part of the page is important. Buttons, backgrounds, frames, fonts, etc.”

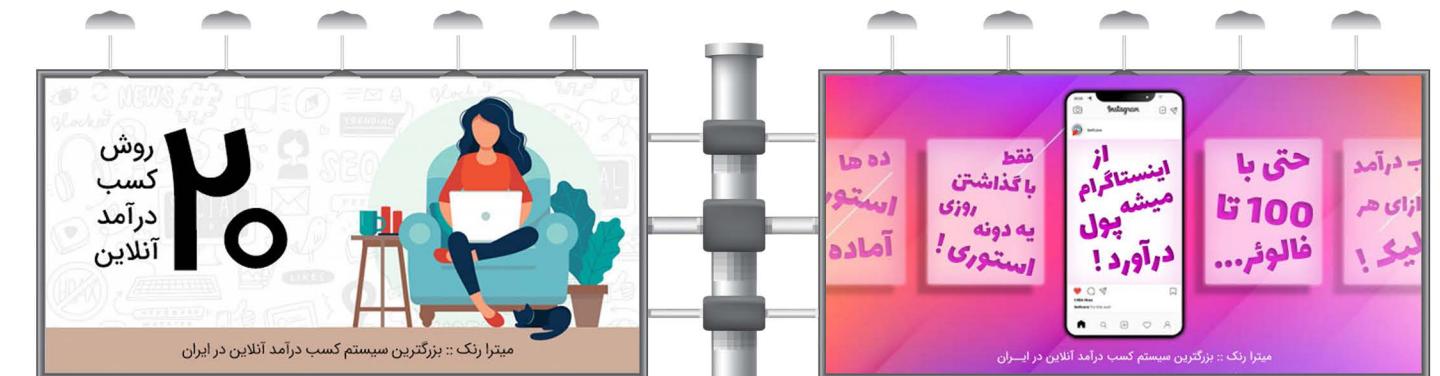

PersianLegends.ir  
Set of board game cards

storybaz.ir home page design

# ADVERTISEMENT DESIGN

“Let's show the world what we can do”

# EXPERIENCES

“ Be brave. Take risks. Nothing can substitute experience.”

1.

## Last Company

2023 - 2022 Tehran

Last but not least, my current job is as a full-stack web developer and marketing manager. So far, I am ready to start a new journey in another country. I am full of hope and ready to challenge myself in a new culture.

2.

## Asr Hooshamnd Sana

2019 - 2021 Tehran

This company presents online insurance services under the brand name Vabimeh.ir. We have created a website that can communicate with users like a operator to present an insurance plan and calculate the plan price immediately.

3.

## Tabarzin Sanat

2017 - 2019 Tehran

After a couple of years of gathering experience about how to manage a business and handle customers, I was ready to work as an advisor for this company, so I started my new job as an IT consultant here.

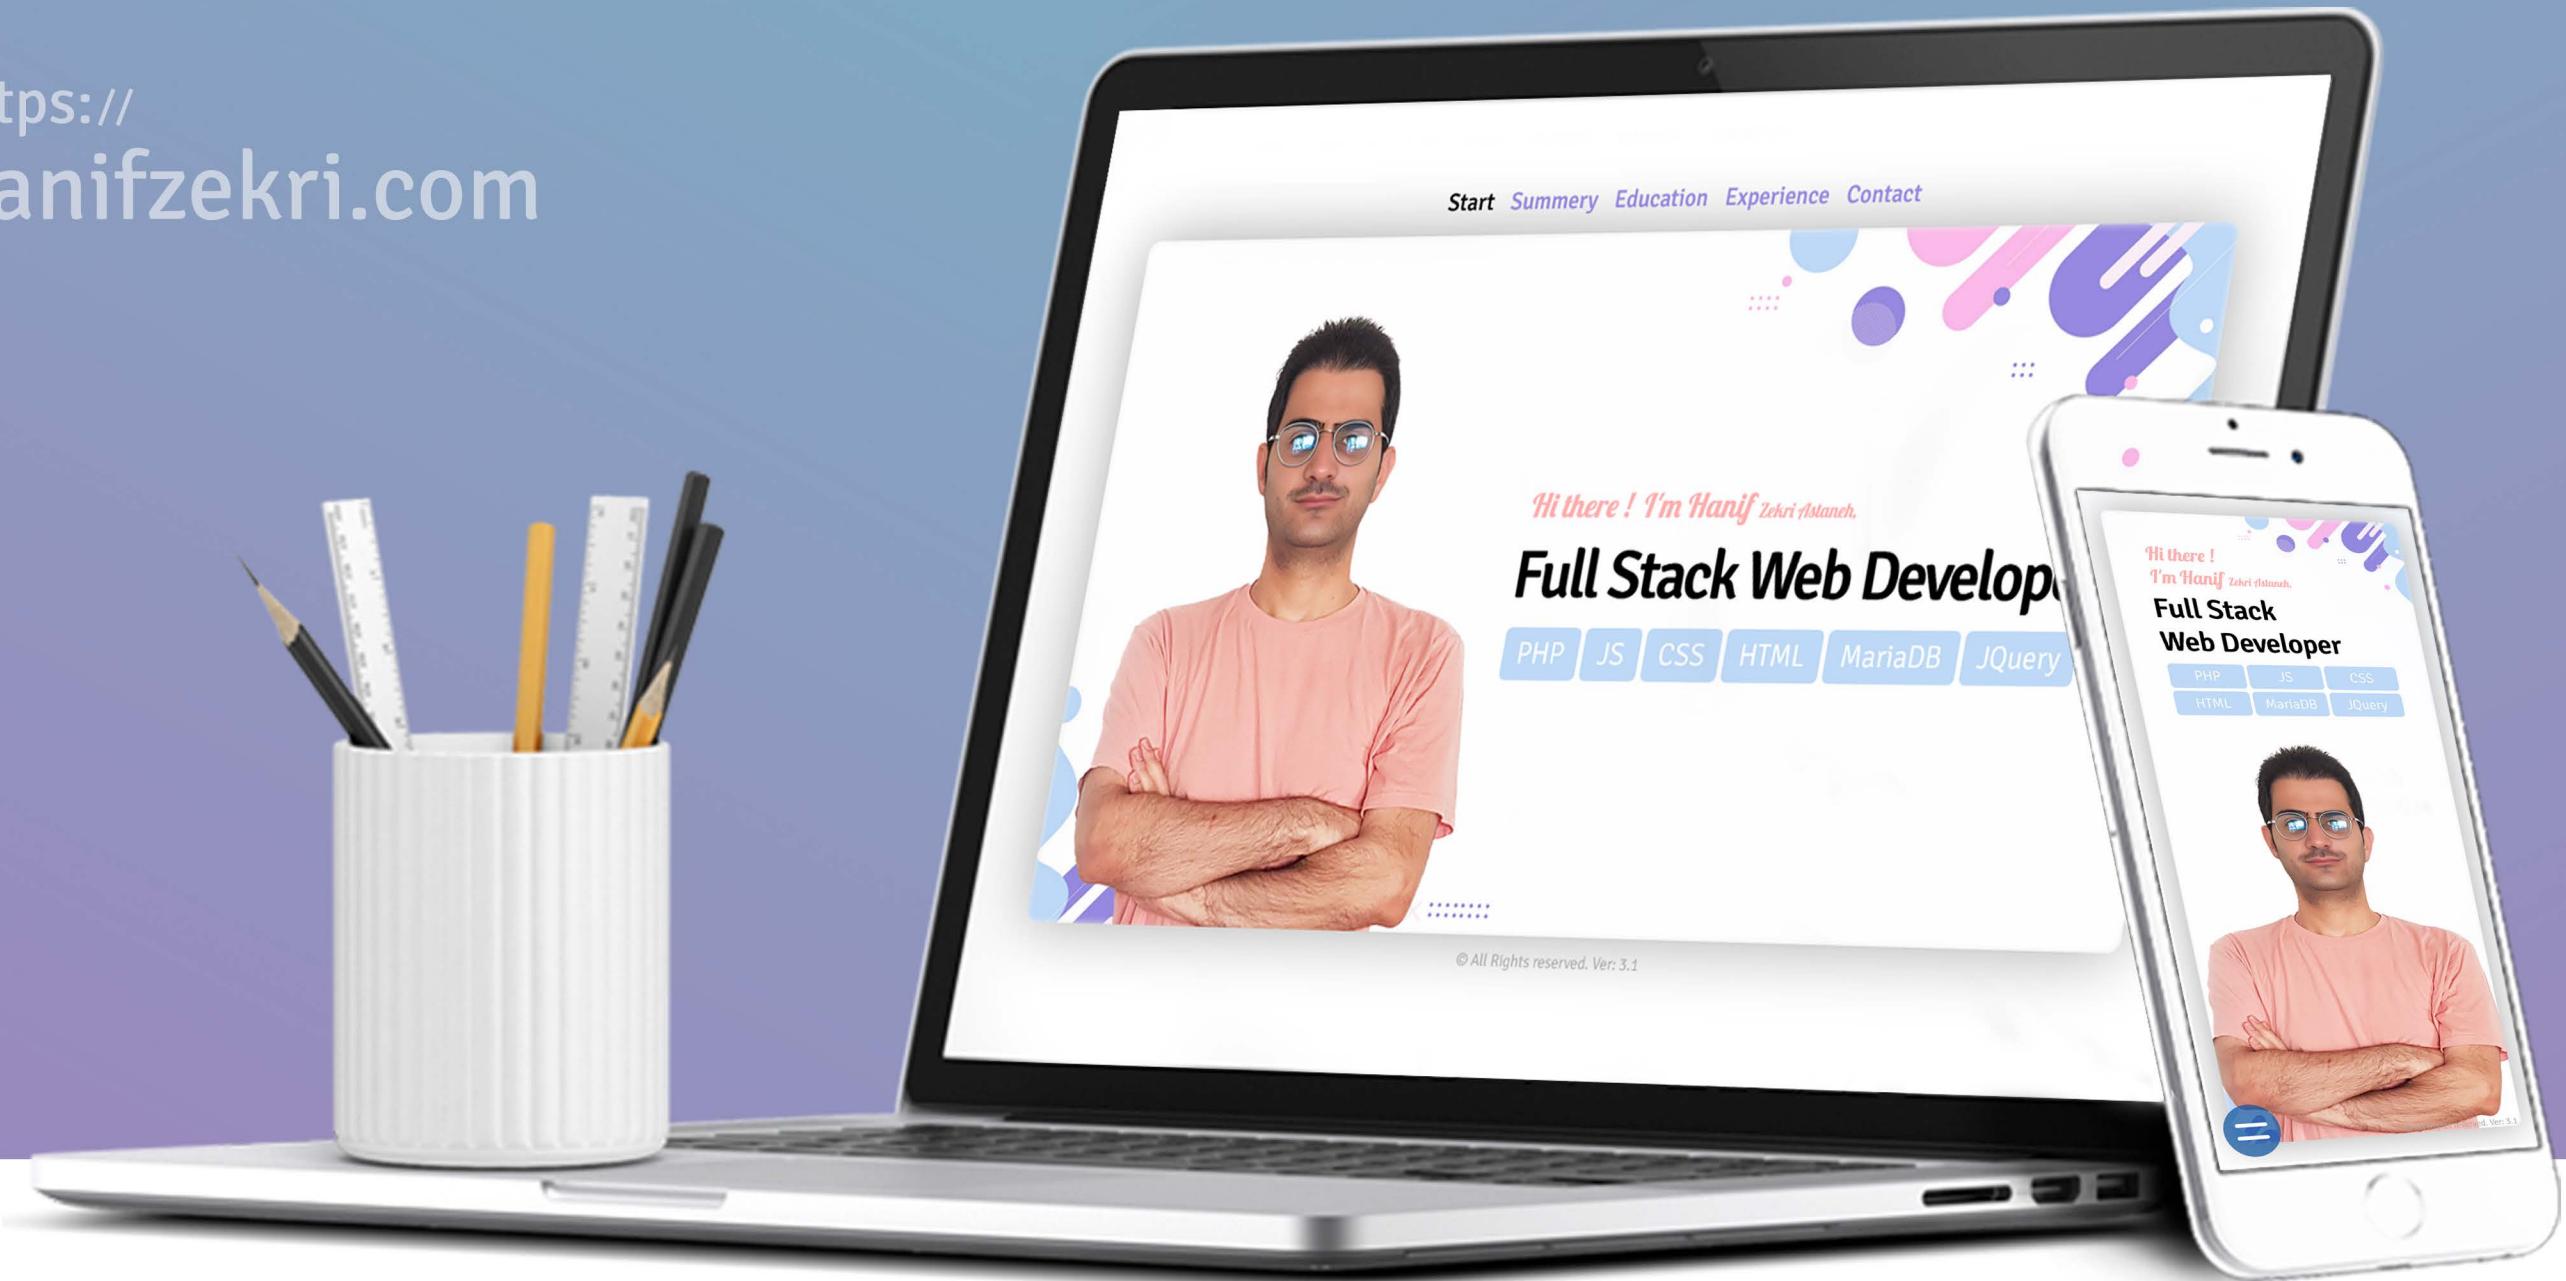

4.

## Mitra Net Pars

2011 - 2016 Tehran

I started my career at this company and learned a lot about how to design and develop a website as an online service with high traffic. They currently worked under brand name, mitrarank.ir.
